**RESPONSE UNDER 37 C.F.R. § 1.116**

Dear Sir:

This paper is a responsive to the Final Office Action mailed on June 17, 2009.

**REMARKS**

Applicant thanks the Examiner for the detailed remarks and analysis. Claims 22, 24, 25, 27-31, 33, 35-39, and 41-46 remain pending. Applicant requests reconsideration of the rejections made final for the following reasons.

**1. Rejection of claims 31, 33, 35-36 and 45-46 under 35 U.S.C. §112**

The Examiner rejected these claims because the specification does not include the term "overlapping." Applicant respectfully submits that the term is supported by at least Figures 3 and 4 of the originally filed application. Further, even by the Examiner's own definition, "overlapping" is disclosed. As understood, the Examiner argues that the term "overlapping" means "extending past and covering a part of." Figures 3 and 4 disclose one part of the claimed clip stacked on top and covering part of the other clip. According to the Examiner's own reading, one plate resting atop the other *is* overlapping and therefore disclosed in the specification and by the Figures. The rejection should be withdrawn.
